No, the county is in charge of that I just wanted to have a meeting to discuss if other parameters might be useful to have done at the same time, like pesticides. However, I don't think EPA has time to go out and sample and our lab might not have capability to do the pesticides.

So I wanted to reschedule the meeting just to discuss what homes the 2nd set samples should include.

Hi Cheryl,
I see the meeting for private well sample parameters has been cancelled. Does that mean there won't be another round of sampling?
Thanks
